PROFESSIONAL SUMMARY

Results-driven UI/UX Designer and Web Designer with 2+ years of hands-on experience in UI/UX design, wireframing, prototyping, user research, usability testing, full-cycle website development, CRM implementation, and workflow automation. Proven track record delivering high-converting, responsive websites for domestic and international clients using Figma, WordPress (Elementor), Webflow, and Lovable. Skilled in design systems, information architecture, accessibility, and Agile cross-functional collaboration, with hands-on success automating business workflows and developing custom chatbots that streamline operations, improve conversion rates, and support sustainable growth.

CORE EXPERTISE

UI/UX & Web Design

End-to-end Figma prototyping, wireframing, user research, and usability testing through to live deployment via WordPress, Lovable, and Webflow.

CRM & Workflow Automation

Custom CRM setup, chatbot integration, and automated pipelines that reduce manual effort and increase output.

PROFESSIONAL EXPERIENCE

UI/UX Designer / Web Designer / CRM & Workflow Automation Specialist

OMX Digital Pvt Ltd | Siliguri, India | Nov 2024 – Present

- Created pixel-perfect Figma prototypes, applying UX and usability principles to optimize navigation, accessibility, and conversion rates across client projects.
- Designed and deployed 10+ responsive, high-converting websites using WordPress Elementor, Lovable, and Webflow.
- Implemented and customized CRM systems for 5+ clients, designing automated workflows that reduced manual follow-up time by an estimated 40%.
- Developed custom WhatsApp chatbots to automate lead qualification and customer support, improving response time and client satisfaction.
- Managed full project lifecycle for international clients, covering requirements gathering, design, development, testing, and post-launch support.

UI/UX Designer

Digital Woods | Siliguri, India | May 2024 – Oct 2024

- Designed user-centered interfaces for 6+ cross-functional projects, improving navigation flow, information architecture, and visual hierarchy.
- Conducted structured design reviews and usability feedback sessions within Agile sprint cycles, strengthening cross-team collaboration and on-time delivery.

UI/UX Freelancer

Independent | Remote | Jul 2023 – Present

- Delivered end-to-end UI/UX solutions covering user research, usability testing, and high-fidelity prototyping.
- Maintained strong client relationships across multiple time zones with consistent on-schedule delivery.
- Produced wireframes and interactive Figma prototypes for both technical and non-technical stakeholders.
